Bibliography of Books, Journal Articles, Conference Papers and Other Printed Sources relating to Archival Buildings and Equipment

Bibliographie des livres, articles de revues, communications et autres sources imprimées concernant les bâtiments et équipements d'archives

Introduction

This bibliography provides a comprehensive list of sources about archival buildings, and can be used by anyone seeking information on this topic. The bibliography formed one of the tasks set by the Committee on Archival Buildings in Temperate Climates (ICA-CBTE) during the period 1996-2000. It was largely compiled by Arnold den Teuling, provincial inspector of records and archives in the Dutch provinces of Drenthe, Friesland (Fryslân) and Groningen. It has been continued by Ted Ling, from the National Archives of Australia, during the period 2000-2004.

It has been decided that, as far as possible, the bibliography will adhere to the ICA's principal languages of English and French, though clearly the titles of some articles are in other languages. It is intended to add to the bibliography from time to time, with the prospect of additions from Chinese, Slavic, Hispanic and German colleagues.

If you have any queries about the bibliography, or would like to see specific items added to it, or are aware of any errors that may be present, please email Ted Ling directly (tedl@naa.gov.au).

Cette bibliographie fournit une liste complète de références sur les bâtiments d'archives à la disposition de toute personne cherchant de l'information sur la question. Cette bibliographie a été un des projets menés par le Comité sur les bâtiments d'archives dans les climats tempérés (ICA/CBTE) pendant la période 1996-2000. Elle a été principalement élaborée par Arnold den Teuling, inspecteur provincial des archives dans les provinces hollandaises de Drenthe, Frise et Groningue. Elle a été poursuivie par Ted Ling, des Archives nationales d'Australie, pendant la période 2000-2004.

Il a été décidé que, dans la mesure du possible, la bibliographie serait dans les langues principales du CIA, l'anglais et le français, même s'il y a des titres de quelques articles dans d'autres langues. Il est prévu de la compléter de temps en temps, avec des compléments apportés par des confrères chinois, slaves, hispaniques et allemands.

Si vous avez des questions sur la bibliographie ou si vous souhaitez voir ajouter des articles spécifiques ou constatez des erreurs, merci de vous adresser directement par e-mail à Ted Ling (tedl@naa.gov.au).
