PREFACE

- P1.** A working document was developed by a group of the Committee on Best Practices and Standards (ICA/CBPS). The group was established during the meeting of the provisional Section of Professional Standards and Best Practices in Bern, Switzerland, June, 2005.
- P2.** Recognition of the importance of functions in the creation context of records led the group to propose the development of an international standard for the description of functions in archival information systems. In carrying out the development of this standard, the group drew upon models of functional description and analysis currently being applied in archives and records management in Australia, Canada, Switzerland, the United Kingdom and the United States as well as international work that has been done by the International Organization for Standardization (ISO), such as ISO 15489 International Standard on Records Management (2001) and ISO 23081 International Standard on Records management processes -- Metadata for records (2006-2007). The group completed a first draft document which was discussed, amended, and extended at its meeting in Paris in May 2006. This draft was circulated to the international archival community for comment. Comments received during this worldwide review were taken into account at a plenary of the Committee on Best Practices and Standards held in Dresden in May 2007. The current document is the result of this process.

The following are the members of the ICA Committee on Best Practices and Standards who developed the standard and served on the Committee during its 2004-2008 term:

Bärbel Förster (Switzerland)
Beatriz Franco (Spain)
Padré Lydie Gnessougou Baroan-Dioumency (Ivory Coast)
Torbjörn Hörnfeldt (Sweden)
Jenny Kotte (Germany)
Vitor Manoel Marques da Fonseca (Brazil), Vice-Chair of ICA/CBPS
Per-Gunnar Ottosson (Sweden), Lead in Area of Archival Description
Victoria Peters (United Kingdom)
Claire Sibille (France), Co-Secretary of ICA/CBPS
Édouard Vasseur (France)

The ICA Committee on Best Practices and Standards (ICA/CBPS) is also composed of:

Marion Beyea (Canada; Chair of ICA/CBPS);
Nils Brübach (Germany; PCOM Portfolio Holder for Developing Standards and Best Practices);
Karen Cannell (United States; Lead in Area of Electronic Records and Digitization);
Virginia Castillo Sahun (Andorra);
Rosine Cleyet-Michaud (France; Lead in Evaluation and Appraisal Area);
Howard Davies (United Kingdom);
Blanca Desantes Fernandez (Spain; Vice-Chair of ICA/CBPS);
Vincent Doom (France);
Cassandra Findlay (Australia);
Michael Fox (United States);
Markku Leppanen (Finland);
Thomas Mills (United States);
John Martinez (United States; Co-Secretary of ICA/CBPS);
Catherine Nicholls (Australia; Lead in Area of Preservation);
Dick Sargent (United Kingdom), 2004-2006;
Paola Tascini (Italy);
Yolia Tortolero (Mexico);
Stefano Vitali (Italy);
Amy Warner (United Kingdom), 2007-;

and (corresponding members):

Eugenio Bustos Ruz (Chili);
Elvira Corbelles Sanjurjo (Cuba);
Adrian Cunningham (Australia);
Leila Estephanio de Moura (Brazil);
Ana Virginia Garcia de Benedictis (Costa Rica);
Marisol Mesa Leon (Cuba);
Miguel Rui Infante (Portugal);
Andras Sipos (Hungary).

The ICA Committee on Best Practices and Standards (ICA/CBPS) gratefully acknowledges the sponsorship of its plenary meetings by the following institutions:

Direction des Archives de France (Paris, France)

Sächsisches Staatsarchiv (Dresden, Deutschland)

Without their substantial contributions, both financial and in facilities and logistics for organizing the meetings, the development of this standard would not have been possible.

1. SCOPE AND PURPOSE

- 1.1 This standard provides guidance for preparing descriptions of functions of corporate bodies associated with the creation and maintenance of archives.
- 1.2 The term “function” is used throughout this standard to include not only function but also any of the subdivisions of a function such as subfunction, business process, activity, task, transaction or other term in international, national or local usage. The standard may be used to describe a function or any of its subdivisions.
- 1.3 Analysis of the functions of corporate bodies is important as the basis for many recordkeeping activities. Functions are recognised as generally being more stable than administrative structures, which are often amalgamated or devolved when restructuring takes place. Functions are therefore well suited to act as:
 - a basis for the arrangement, classification and description of records
 - a basis for the appraisal of records
 - a tool for the retrieval and analysis of records.
- 1.4 Description of functions plays a vital role in explaining the provenance of records. Descriptions of functions can help place records more securely in the context of their creation and use. They can help explain how and why records were created and subsequently used, the purpose or function within an organisation which the records were designed to fulfil, and how records fitted in with and related to other records produced by the same organisation.
- 1.5 Descriptions of functions may be used:
 - a. to describe functions as units within an archival descriptive system
 - b. to control the creation and use of access points in archival descriptions
 - c. to document relationships between different functions and between those functions and the corporate bodies which performed them and the records to which they gave rise.
- 1.6 Descriptions of functions are intended to complement and supplement descriptions of records created in accordance with ISAD(G) and authority records created in accordance with ISAAR(CPF). Keeping information on functions separate both from descriptions of records and authority records means less repetition of information and allows for the construction of flexible archival descriptive systems.

2. RELATED STANDARDS AND GUIDELINES

Note: This list includes the dates of relevant standards as they existed at the time of finalization of the 1st edition of the standard in 2008. Future readers are encouraged to refer to the latest version of each standard.

3. GLOSSARY OF TERMS AND DEFINITIONS

The following glossary forms an integral part of this standard. The terms are defined in the context of the rules.

Archival description. The creation of an accurate representation of a unit of description and its component parts, if any, by capturing, analyzing, organizing and recording information that serves to identify, manage, locate and explain archival materials and the context and records systems which produced them. This term also describes the products of the process.

Authority record. The authorised form of name combined with other information elements that identify and describe the named entity and may also point to other related authority records.

Corporate body. An organization or group of persons that is identified by a particular name and that acts, or may act, as an entity. Also includes an individual acting in a corporate capacity.

Creator. Any entity (corporate body, family or person) that created, accumulated and/or maintained records in the conduct of personal or corporate activity.

Function. Any high level purpose, responsibility or task assigned to the accountability agenda of a corporate body by legislation, policy or mandate. Functions may be decomposed into sets of co-ordinated operations such as subfunctions, business processes, activities, tasks or transactions.

Provenance. The relationships between records and the organizations or individuals that created, accumulated and/or maintained and used them in the conduct of personal or corporate activity. Provenance is also the relationship between records and the functions which generated the need of the records.

Record. Information in any form or medium, created or received and maintained by an organization or person in the transaction of business or the conduct of affairs.

4. STRUCTURE AND USE OF THE STANDARD

- 4.1 This standard determines the type of information that can be included in descriptions of functions and provides guidance on how such descriptions may be deployed in an archival information system. The content of the information elements included in the descriptions will be determined by the conventions and/or rules that the archival institution follows.
- 4.2 This standard consists of information elements, each of which contains:
- a. the name of the element of description;
 - b. a statement of purpose for the element of description;
 - c. a statement of the rule (or rules) applicable to the element; and
 - d. where applicable, examples illustrating implementation of the rule.
- 4.3 Paragraphs are numbered and are given for citation purposes only. These numbers should not be used to designate elements of description or to prescribe the order or structure of descriptive resources.
- 4.4 The elements of description are organised into four information areas:
1. Identity Area
(where information is conveyed which uniquely identifies the function and which defines a standardized access point)
 2. Context Area
(where information is conveyed about the nature and context of the function)
 3. Relationships Area
(where relationships with other functions are recorded and described)
 4. Control Area
(where the description of a function is uniquely identified and information is recorded on how, when and by which archival institution the description was created and maintained)
- 4.5 This standard also provides in Chapter 6 guidelines for linking descriptions of functions to authority records that describe records creators and to descriptions of archives. Note that a given description may be linked to as many authority records and/or descriptions of archives as required.
- 4.6 The Appendix B provides full examples of descriptions of functions compiled in accordance with this standard. See also 4.10.
- 4.7 All the elements covered by these rules are available for use, but the following three elements are essential:
- Type (element 5.1.1);
 - Authorised form(s) of name (element 5.1.2); and
 - Function description identifier (element 5.4.1).

- 4.8 The nature of the function and the requirements of the particular system or network within which the preparer of a description works will determine which of the optional elements of description are used in a given description of a function, and whether these elements are presented in a narrative and/or a structured format.
- 4.9 Many of the descriptive elements in a description of a function established in accordance with the present standard can be used as access points. Rules and conventions for standardising access points may be developed nationally or separately for each language. Vocabularies and conventions to be used in creating or selecting the data content for these elements may also be developed nationally or separately for each language.
- 4.10 Examples provided throughout the standard are illustrative and not prescriptive. They illuminate the provisions of the rules to which they are attached, rather than extend those provisions. Do not take the examples, or the form in which they are presented as instructions. To clarify the context, each example is followed by an indication in *italic* of the name of the agency that supplied the example. Further explanatory notes may follow, also in *italic*, preceded by the word *Note*.
- 4.11 This standard is intended to be used in conjunction with *ISAD(G) - General International Standard Archival Description*, 2nd edition, ISAAR(CPF) – *International Standard Archival Authority Record for Corporate Bodies, Persons and Families*, 2nd edition, and with national archival descriptive standards. When these standards are used together within the context of an archival descriptive system or network, descriptions of functions will be linked to descriptions of archives and to authority records, and vice versa. Chapter 6 provides guidance on how these links may be created. To decide which elements may be repeatable or not, archivists may be guided by national standards.
- 4.12 This standard addresses only part of the conditions needed to support the exchange of information about functions. Successful automated exchange of information about functions over computer networks is dependent upon the adoption of a suitable communication format by the archival institutions involved in the exchange. This standard is intended to be used as the basis for a development of communication and/or data exchange formats, such as XML DTDs and/or schemas.

5. ELEMENTS OF A FUNCTION DESCRIPTION

5.1 IDENTITY AREA

5.1.1 Type

Purpose:

To indicate whether the description is a function or one of its subdivisions.

Rule:

Specify whether the description is a function or one of its subdivisions, in accordance with national or international terminology.

Examples:

Subfunction

Business process

Activity

Task

Transaction

5.1.2 Authorised form(s) of name

Purpose:

To establish an authorised access point that uniquely identifies the function.

Rule:

Record the authorised form(s) of name of the function. Use the territorial or administrative scope of the function, the name of the institution which performed it and other qualifiers as appropriate to distinguish the function from other functions with similar names. This element is to be used in conjunction with the Function description identifier element (5.4.1).

Examples:

Student registration, Trinity College, Glasgow (*activity*)

Description prepared by: United Kingdom, Glasgow University Archive services

Gestion des allocataires du revenu minimum d'insertion (*activité*)

Description prepared by: France, Direction des Archives de France

Gestión de la investigación (*función*)

Description prepared by: Spain, Archivo General de la Universidad Pública de Navarra

Habilitação de condutor de veículo. Departamento de Trânsito do Estado do Rio de Janeiro (*função*)

Description prepared by: Brazil, Departamento Estadual do Trânsito do Rio de Janeiro

5.1.3 Parallel form(s) of name

Purpose:

To indicate the various forms in which the authorised form(s) of name occurs in other languages or scripts.

Rule:

Record the parallel form(s) of name in accordance with any relevant national or international conventions or rules applied by the archival institution that created the description, including any necessary subelements and/or qualifiers required by those conventions or rules. Specify in the Rules and/or conventions used element (5.4.3.) which rules have been applied.

5.1.4 Other form(s) of name*Purpose:*

To indicate any other names of the function.

Rule:

Record any other names of the function.

Examples:

Enrolment
Matriculation

Description prepared by: United Kingdom, Glasgow University Archive services

Note: For the activity Student registration, Trinity College, Glasgow

5.1.5 Classification*Purpose:*

To classify the function according to a classification scheme.

Rule:

Record any term and/or code from a function classification scheme. Record the classification scheme used in the Rules and/or conventions used element (5.4.3).

Examples:

L100

Description prepared by: Spain, Archivo General de la Universidad Pública de Navarra

Note: For the function Gestión de la investigación

4.2.1

Description prepared by: Brazil, Departamento Estadual do Trânsito do Rio de Janeiro

Note: For the function Habilitação de condutor de veículo. Departamento de Trânsito do Estado do Rio de Janeiro

5.2 CONTEXT AREA**5.2.1 Dates***Purpose:*

To identify the date or range of dates of the function.

Rule:

Provide a date or date span, which covers the dates when the function was started and when it finished. If a function is ongoing, no end date is needed.

Examples:

1857 - 1935

Description prepared by: United Kingdom, Glasgow University Archive services

Note: For the activity Student registration, Trinity College, Glasgow

1988 - ...

Description prepared by: France, Direction des Archives de France

Note: For the activity Gestion des allocataires du revenu minimum d'insertion

1987 - ...

Description prepared by: Spain, Archivo General de la Universidad Pública de Navarra

Note: For the function Gestión de la investigación

1853 - ...

Description prepared by: Brazil, Departamento Estadual do Trânsito do Rio de Janeiro

Note: For the function Habilitação de condutor de veículo. Departamento de Trânsito do Estado do Rio de Janeiro

5.2.2 Description

Purpose:

To provide information about the purpose of the function.

Rule:

Record a narrative description of the purpose of the function.

Examples:

The registration of students on the College's taught and research programmes.

Description prepared by: United Kingdom, Glasgow University Archive services

Note: For the activity Student registration, Trinity College, Glasgow

Le Revenu minimum d'insertion (RMI) est une allocation française gérée par les conseils généraux et versée par les caisses d'allocations familiales (CAF) ou la mutualité sociale agricole (MSA), aux personnes en âge de travailler, sans ressources ou ayant des ressources inférieures à un plafond fixé par décret.

Description prepared by: France, Direction des Archives de France

La gestión de la investigación cubre diferentes perspectivas:

- Promover la formación de investigadores a través de una serie de convocatorias de becas y ayudas financiadas por la Universidad Pública de Navarra.
- Elaboración y gestión de la convocatoria de dotación de equipamiento científico de los grupos de investigación de la Universidad Pública de Navarra. Asimismo, recogida y gestión de las solicitudes de participación en convocatorias externas con el mismo objetivo.
- Elaboración de las convocatorias de premios de investigación y gestión en orden a la concesión de los mismos.
- Gestión de la difusión de convocatorias de becas y ayudas de investigación de organismos ajenos a la Universidad Pública de Navarra, así como de la recogida de solicitudes y posterior envío al registro autorizado del organismo convocante.
- Gestión de las ayudas dirigidas a la organización de congresos, financiadas por la Universidad Pública de Navarra.
- Gestión de los trámites necesarios para difundir la convocatoria y recoger las solicitudes de los investigadores interesados en obtener ayudas del Gobierno de Navarra para la realización de tesis doctorales y proyectos de investigación.
- Realización de los trámites necesarios con el fin de que los grupos de investigación participen en las convocatorias de organismos externos que conceden ayudas destinadas a proyectos de investigación.
- Elaboración del catálogo de grupos de investigación, incluyendo el baremo para valorar la actividad investigadora de cada grupo.
- Recoger la documentación que pone de relieve la trayectoria del personal investigador becario de la Universidad Pública de Navarra.

- Elaboración de las convocatorias y gestión de diversas ayudas mediante las cuales la Universidad Pública de Navarra promueve la investigación.
- Gestión de la participación de la Universidad en el marco de la convocatoria de los diferentes programas promovidos por el Ministerio de Ciencia y Tecnología.
- Elaboración de las memorias de investigación.
- Comunicación a todos los sectores interesados de las convocatorias tanto públicas como privadas que financian la actividad investigadora.
- Gestión de los trámites necesarios en orden a la celebración de las sesiones de la Comisión de Investigación.
- Agrupar la documentación referente a los grupos de investigación en marcha en la Universidad Pública de Navarra.
- Gestión de la investigación contratada.
- Gestión de organización de la infraestructura necesaria para el apoyo a los proyectos empresariales universitarios.
- Asesoramiento y apoyo en la solicitud de participación en proyectos dentro de los Programas Marco de I+D de la Unión Europea.

As ações de habilitação de condutor de veículo integram o sistema nacional de gestão e coordenação de trânsito de pessoas, veículos e animais em vias terrestres, que é normalizado por legislação federal, complementado por atos oficiais estaduais e municipais. A sua execução cabe ao Departamento Nacional de Trânsito – DENATRAN e aos departamentos estaduais de trânsito.

A habilitação de condutor de veículo formaliza-se na emissão da Carteira Nacional de Habilitação – CNH seja pela primeira habilitação ou pela sua renovação, para cidadãos brasileiros e estrangeiros habilitados ou não, com estada regular no Brasil.

Para obter a primeira habilitação, os candidatos que preenchem os requisitos definidos por lei, submetem-se a exame teórico de legislação de trânsito, exame médico-psicológico e exame prático de direção veicular de acordo com a categoria pretendida (condução de veículo motorizado de duas ou três rodas, veículo motorizado de quatro rodas de passeio, veículo motorizado para transporte de cargas e/ou passageiros).

A formação (preparação para os exames teórico e prático) dos candidatos à primeira habilitação é realizada em centros de formação de condutores credenciados e fiscalizados pelo Detran-RJ.

Os exames médicos e psicológicos são realizados por clínicas credenciadas e fiscalizadas pelo Detran-RJ.

Os exames teóricos de legislação são informatizados e realizados nos postos de habilitação.

Na renovação da habilitação, são necessários apenas os exames teórico de legislação e médico-psicológico.

Estão contemplados também os estrangeiros residentes ou com visto permanente, habilitados nos países de origem, desde que signatários de convenções internacionais relacionadas a esta função. Nestes casos, a habilitação do condutor é formalizada pela emissão de “CNH para estrangeiro” ou de “Autorização provisória para estrangeiro dirigir”.

A obtenção da primeira habilitação corresponde à inscrição do condutor em cadastro nacional através da atribuição de identificador numérico permanente.

5.2.3 History

Purpose:

To provide a concise history of the function.

Rule:

Record in narrative form or as a chronology the history of the performance of the function. This may include information on how and why the function was performed, the roles played by office bearers, departments, organisations and other entities in the

performance of the function and how this may have changed over time. Wherever possible, supply dates as an integral component of the description.

Examples:

A student had to produce various certificates before he could be enrolled at the College. These certificates included a diploma or degree certificate or class tickets, a certificate from his local presbytery showing he had passed its examinations, a certificate of character from the minister of the congregation he attended and, up until 1901 an examination board certificate showing he had passed the College entrance examination. Before enrolment, he also had to matriculate. By resolution of the Senate in November 1857, the Librarian was charged with handling matriculations. The student's details were recorded in a register which served jointly as a matriculation record and a library register. The student also had to pay a prescribed matriculation fee, initially set at 10 shillings, to the Treasurer. Students had to matriculate each year of their course. Following matriculation, the Clerk of Senate examined the various certificates and drew up, presumably using the information in the matriculation albums, a roll of all the matriculated and enrolled students for the coming session. Students were grouped by year of study and the amounts of any bursaries they had been awarded were also recorded. This list was submitted to the Senate and recorded in the minutes between October and December.

Following the union of the College and the Faculty of Divinity at Glasgow University in 1935, all students of the College henceforth matriculated at the University.

Le RMI vit le jour à Besançon en 1968 sous l'appellation « Minimum social garanti ». Des initiatives locales testèrent le principe, comme à Rennes sous le nom de Complément local de ressources, expérience conduite sur plusieurs années et qui contribua beaucoup aux dispositions légales suivantes. La loi n° 88-1088 du 1er décembre 1988 instituant le RMI, fut appliquée à partir du 15 décembre 1988.

La investigación en la universidad española constituye una actividad relativamente reciente, en contraste con el modelo Humboltiano que se había extendido por Europa y Estados Unidos a lo largo del siglo XIX. En esos países, las universidades evolucionaron hacia una combinación de docencia con investigación, y con el tiempo fueron consolidando un modelo de organización colectivo en departamentos vertebrados sobre una disciplina. En España la ejecución directa de la investigación se inició en los años del franquismo a través de centros de investigación creados y dependientes de los diferentes ministerios, al tiempo que el modelo universitario español estaba firmemente asentado en la docencia. De hecho, la función investigadora en la universidad no se inició hasta la creación de los primeros grupos de investigación a finales de la década de los años sesenta del siglo pasado, si bien con una dotación de medios destinados a I+D muy limitada.

El panorama cambió con la aprobación de la Ley de Reforma Universitaria (LRU) de 1983 y de la Ley de Fomento y Coordinación General de la Investigación Científica y Técnica de 1986 - conocida como Ley de la Ciencia-. Estas leyes supusieron un cambio de modelo, en el cual la investigación y el servicio a la sociedad, por medio de la transferencia de tecnología, pasaron a representar valores importantes, añadidos al tradicional de la formación por medio de la docencia. Así, la LRU establecía la doble dimensión de las universidades como centros docentes y como centros de investigación, y reconocía la investigación como actividad básica del personal universitario, organizado en departamentos, y regida por criterios de calidad investigadora. Asimismo, la LRU introdujo incentivos a la realización de I+D con contrato o en colaboración con el sector privado, estableciendo lazos con el entorno productivo como complemento a la financiación por las Administraciones Públicas.

Con la promulgación de la Ley Orgánica de Universidades (LOU) de 2001, una parte muy significativa del esfuerzo español en I+D se desarrolla en el marco de la institución universitaria, hasta el punto de que la mayor parte de los investigadores españoles se hallan en las universidades y que los profesores universitarios dedica una parte significativa de su tiempo de trabajo a la

investigación, incentivada mediante incrementos retributivos.

En la perspectiva actual, la investigación es una función característica y esencial de la institución universitaria, actuando como fundamento de la docencia. Entre otros aspectos, la LOU reconoce y garantiza la libertad de investigación – auténtico motor para el desarrollo de la investigación científica, técnica y artística, básica y aplicada – considerada como un derecho y deber del profesorado universitario, desarrollada tanto a título individual como en grupos de investigación, departamentos e institutos de investigación.

En definitiva, la investigación busca contribuir al avance y la transferencia del conocimiento, a la mejora de la calidad de vida de los ciudadanos y a la competitividad de las empresas.

As primeiras autorizações para condutores de veículos na cidade do Rio de Janeiro foram emitidas no século XIX, pela Inspetoria de Veículos, criada em 1853 e subordinada à chefia de polícia da capital.

Essas autorizações habilitavam os condutores de veículos particulares e de transporte público, permitindo a verificação por parte das autoridades da observância das posturas municipais relativas à circulação de veículos na cidade.

A partir de 1907, os procedimentos administrativos de habilitação de condutor passaram a diferenciar os motoristas amadores dos profissionais. E, em 1913, foi emitida a primeira carteira de habilitação para condutor de veículo automotor.

Com a instituição do primeiro Código Nacional de Trânsito em 1941, posteriormente substituído por um segundo código em 1966, a habilitação de condutor de veículos passou a ser uma função normalizada e gerida pela administração federal e executada, por delegação, por órgãos executivos estaduais, os Detrans.

Em 1967, constituía-se o Sistema Nacional de Trânsito integrado pelo Conselho Nacional de Trânsito, pelos Conselhos Estaduais de Trânsito, pelos órgãos executivos de trânsito da União, estados, Distrito Federal e municípios, pelas polícias militares dos estados e do Distrito Federal, pela Polícia Rodoviária Federal e pelas Juntas Administrativas de Recursos e Infrações.

Com a criação do RENACH – Registro Nacional de Carteiras de Habilitação, em 1967, implantou-se um cadastro nacional de condutores de veículos habilitados nas unidades da federação.

Em 1997, foi instituído o atual Código Nacional de Trânsito que também dispõe sobre a matéria.

5.3 RELATIONSHIPS AREA

5.3.1 Authorised form(s) of name/Identifier of the related function

Purpose:

To provide the authorised form(s) of name and any unique identifier of the related function.

Rule:

Record the authorised form(s) of name and any unique identifier of the related function.

5.3.2 Type

Purpose:

To indicate whether the relationship is established with a function or one of its subdivisions.

Rule:

Specify whether the relationship is established with a function or one of its subdivisions, in accordance with national or international terminology.

5.3.3 Category of relationship

Purpose:

To identify the general category of relationship between the function and the related function.

Rule:

Record a general category into which the relationship falls. Use general categories prescribed by national rules and/or conventions or one of the following three categories:

- **hierarchical** (e.g. function/activity; activity/function)

A hierarchical relationship is the relationship between a function and any of its subdivisions such as subfunctions, business processes, activities, tasks or transactions.

- **temporal** (earlier to later or vice versa)

A temporal relationship is one in which one function succeeds another. In turn, it may be succeeded by another function.

- **associative**

An associative relationship is a general category for relationships not covered by either of the above.

Record in the Rules and/or conventions element (5.4.3) the typology used to describe the relationship.

5.3.4 Description of relationship

Purpose:

To provide a specific description of the nature of the relationship.

Rule:

Record a precise description of the nature of the relationship between the function and the related function.

5.3.5 Dates of relationship

Purpose:

To indicate the dates of duration of the relationship of the function with the related function.

Rule:

Record, when relevant, the beginning and/or end date of the relationship. Specify in the Rules and/or conventions element (5.4.3) any systems of dating used, e.g. ISO 8601.

6. RELATING FUNCTIONS TO CORPORATE BODIES, ARCHIVAL MATERIALS AND OTHER RESOURCES

An understanding of the functions of corporate bodies is essential for a full understanding of the provenance. Records have a fundamental relationship with functions. They are the direct outcome of the fulfilment of functions. Furthermore, whilst the relationships between records and corporate bodies can fluctuate over time as the administrative or organisational structure of a corporate body changes, the relationships between records and functions remain constant. An archival descriptive system which includes descriptions of functions in addition to descriptions of record creators and records will therefore provide a much richer account of the provenance.

To make descriptions of functions useful it is necessary to link them to descriptions of corporate bodies and records. Descriptions of functions can also be linked to other information resources. When linkages are made, it is important to describe the nature of the relationship between the function and the linked resource. This section provides guidance on how such linkages can be created in the context of an archival descriptive system. Use the three elements below to create a link to a description of a corporate body, a record or any other information resource. The three elements may be reused to create any number of such links. See Appendix A for a graphical representation of the possible relationships of functions with corporate bodies and records.

6.1 Identifier and authorised form(s) of name/title of related resource

Purpose:

To identify uniquely the related resource and enable the linking of the function description to the description of the related resource.

Rule:

Record the unique identifier/reference code and the title of the related resource.

6.2 Nature of relationship

Purpose:

To identify the nature of the relationship between the function and the related resource.

Rule:

Describe the nature of the relationship between the function and the related resource.

For relationships with corporate bodies, record information on how the corporate body performs the function, e.g. completely, partially, according to legislation, according to mandate.

6.3 Dates of relationship

Purpose:

To indicate the dates of duration of the relationship between the function and the related resource.

Rule:

Record, when relevant, the start and the end date of the relationship.

Examples:

Relationship 1		
6.1 Identifier and authorised form(s) of name/title of related resource	<i>Authorised form(s) of name</i>	Trinity College, Glasgow

5.2.1 Dates		1868 - ...
5.2.2 Description		The management of the University's communications with its alumni.
5.2.3 History		<p>From 1868, when the membership of the University's General Council was expanded to include all graduates of the University, the General Council handled communications with alumni, including balloting them for the election of the Chancellor. In 1990, the Development Campaign Office was established to co-ordinate the University's newly launched development campaign and to communicate with alumni regarding fund raising. In about 1998, the Development and Alumni Office was established to perform both these functions. Within the Development and Alumni Office, the Alumni Relations Officer was responsible for dealing with queries from and about alumni and ensuring that good relations were maintained between the University and its alumni, and the Development Campaign Officer was responsible for fostering links with alumni and raising funds on behalf of the University.</p> <p>In 1948, the Glasgow University Graduates Association was formed to maintain closer contact between the University and its graduates. It published a magazine, known as the <i>College Courant</i>, which included reminiscences, histories, obituaries and articles concerning education and other topics and became the main means of communication between the graduates. The Glasgow University Graduates Association ceased to exist in 1985 but the University agreed to continue with the publication of a magazine for graduates. Accordingly, from 1987, it published a free, twice-yearly magazine for alumni and friends of the University, known as <i>Avenue</i>.</p>

		Through it, the University kept alumni informed of events and forthcoming meetings of the General Council, which all graduates were entitled to attend. <i>Avenue</i> was produced by Publicity Services under the direction of an Editorial Strategy Committee.

5.2 CONTEXT AREA		
5.2.1 Dates		1984 - ...
5.2.2 Description		The design, conduct and review of the effectiveness of fundraising campaigns in the University.
5.2.3 History		<p>The University has, from its foundation, been the beneficiary of legacies from alumni and supporters. It first became pro-active in fundraising, however, with the establishment of the University of Glasgow Trust in 1984 for the application of charitable funds to the University's purposes.</p> <p>In March 1990, the Chancellor launched a development campaign to raise money to coincide with the forthcoming 550th anniversary of the foundation of the University in 2001. This was administered by the Development Campaign Office. In 1998, the Development and Alumni Office was established, replacing the Development Campaign Office. The duties of the new office included administration of the development campaign, raising funds for projects agreed by the University Management Group, negotiating with major donors to the University, developing fundraising publications and providing campaign news for <i>Avenue</i>, the University's magazine for alumni and friends.</p> <p>The preparations for the 2001 celebrations prompted the University to look at its arrangements for fundraising and, consequently, in 2000, the University of Glasgow Trust was replaced by the Chancellor's Fund, to which were transferred all the Trust's assets. The Fund had the same objectives as the Trust, attaching particular importance to giving help and support to students, but it simplified the arrangements for giving. It provided a channel through which friends and supporters of the University could make gifts which were not earmarked for any specific purpose. An Advisory Board chaired by the Chancellor allocated awards from the Fund, and the Fund was administered by the Development and Alumni Office.</p>

5.2 CONTEXT AREA		
5.2.1 Dates		1909 - 1947
5.2.2 Description		The activity of managing the work of the corporate body or shareholders. It includes conducting and servicing meetings of the shareholders.
5.2.3 History		<p>The company's articles of association, 1909, stipulated that an ordinary meeting of the shareholders was to be held each year at a place and time determined by the board of directors. In addition, extraordinary general meetings could be called at any time by the board, either of its own accord or when requisitioned by any member or members who held in total at least one tenth of the share capital of the company. Notice of between seven and twenty-one days had to be given for both ordinary and extraordinary general meetings. It was the secretary's responsibility to send a notice of the meeting to all shareholders. The notice had to express the time and place of the meeting and the general nature of any special business.</p> <p>At every general meeting, the chairman of the company, or in his absence, a director elected by the other directors present, or a member elected by the other members present, took the chair. The quorum necessary for the transaction of business was two members present in person. At the start of each meeting, the secretary read out the notice calling the meeting and the auditors' report. This was followed by the directors' report, the statement of accounts, the sanctioning of any dividend recommended by the board, the re-election of directors and auditors and the fixing of their remuneration, and any special business. Questions were decided by a majority of those present or, if demanded, by a subsequent poll. The chairman had the casting vote. Any meeting could be adjourned by the chairman with the consent of the meeting.</p> <p>Minutes of the meetings were taken by the secretary and signed by the chairman. They were recorded in volumes which also included minutes of the meetings of the board of directors. The volumes were kept by the secretary at the company's registered office at 12 Buchanan Street, Glasgow. The secretary also maintained a register of the members of the company and the number of shares held by each.</p>

5.2.3 History		<p>Fraser Estates Ltd operated a double entry bookkeeping system. Daily transactions were recorded in a journal. From the journal, entries were posted to a private ledger. Folio numbers for the corresponding entry in the ledger were recorded beside each entry in the journal. Conversely, folio numbers for the corresponding entry in the journal were recorded beside each entry in the private ledger. The journal included greater detail about individual transactions. The accounts in the private ledger were indexed.</p> <p>Fraser Estates Ltd managed the property of Fraser Sons & Co Ltd and subsequently, from 1947, the property of House of Fraser Ltd. Entries concerning Fraser Estates Ltd may therefore be found among the accounts of these two companies as well as their subsidiaries.</p>

5.2 ZONE DU CONTEXTE		
5.2.1 Dates		1789-...
	<i>ISO 8601</i>	1789/9999
5.2.2 Description		<p>La police de l'eau a pour objectif :</p> <ul style="list-style-type: none"> - de lutter contre la pollution des eaux des cours d'eau, lacs, plans d'eau et de la mer, ainsi que des eaux souterraines, en particulier celles destinées à l'alimentation humaine ; - de contrôler la construction d'ouvrages faisant obstacle à l'écoulement des eaux et de prévenir les inondations ; - de protéger les milieux aquatiques et les zones humides ; - de concilier les différents usages de l'eau, y compris les usages économiques.
5.2.3 Histoire		<p>La première grande loi sur l'eau du 8 avril 1898 organise les différents usages de l'eau qui se sont largement développés suite notamment à la révolution industrielle. L'Etat intervient pour la première fois pour réglementer des usages par un système d'autorisation de type « police des eaux ». Il s'agit de veiller à ce que le développement industriel reste compatible avec des impératifs de salubrité et donc de sécurité publique. Il s'agit aussi de veiller à ce que tous les agriculteurs puissent avoir accès à cette ressource.</p> <p>A partir de 1964, la police de l'eau a concerné aussi l'assainissement et les rejets des eaux usées, puis, en 1976, le contrôle des Installations Classées au titre de la Protection de l'Environnement (ICPE).</p> <p>La loi sur l'eau du 3 janvier 1992 a fait évoluer la police de l'eau, jusque là principalement basée sur le contrôle des usages de l'eau, vers une gestion équilibrée des milieux aquatiques et la protection de la qualité de la ressource. A partir de ce moment, la police de l'eau concerne l'ensemble des eaux (rivières, lacs, étangs, eaux souterraines ...) et intervient principalement dans les domaines de l'eau potable, des prélèvements en eau, de l'assainissement et des travaux sur les rivières.</p>
5.2.4 Législation		<p>Loi n° 64-1245 du 16 décembre 1964 relative au régime et à la répartition des eaux et à la lutte contre leur pollution.</p> <p>Loi n° 92-3 du 3 janvier 1992 dite « loi sur l'eau ».</p> <p>Loi n° 95-101 du 2 février 1995 relative au renforcement de la protection de l'environnement.</p> <p>Loi n° 2004-338 du 21 avril 2004 portant transposition de la directive 2000/60/CE du Parlement européen et du conseil du 23 octobre 2000 établissant un cadre pour une politique communautaire dans le domaine de l'eau.</p>

5.2.3 Histoire		<p>Directement issue de la Révolution, la loi des 14 décembre 1789 et 8 janvier 1790 place un corps municipal et un maire à la tête de l'administration de la commune. Les délibérations et les décisions sur les questions de la gestion communale sont subordonnées aux administrations du département et du district. Ce principe de tutelle administrative évolue avec les lois du 21 mars 1831, du 18 juillet 1837 puis du 5 avril 1884.</p> <p>Les domaines de contrôle de la préfecture sont multiples, portant sur les affaires générales, sur la voirie, sur les dons et legs consentis aux communes et sur la gestion de la commune.</p> <p>La voirie régie par la loi du 21 mai 1836 concerne les catégories suivantes :</p> <ul style="list-style-type: none"> - la voirie communale non classée (chemins ruraux, voirie communale) dont la construction et l'entretien restent entièrement à la charge des communes. - les chemins vicinaux classés (chemins de grande communication CGC, chemins d'intérêt commun CIC et chemins vicinaux ordinaires) gérés grâce aux subventions du Conseil général mais placés sous le contrôle du préfet. <p>Ceci jusqu'au décret-loi du 14 juin 1938 qui regroupe les CGC et CIC avec les routes départementales pour former la catégorie des « chemins départementaux », propriété du département et cessant alors d'être à la charge des communes.</p>

5.2.2 Descrição		<p>Elaboração de políticas, diretrizes e normas a serem implantadas em órgãos e entidades da Administração Pública Federal, por meio de métodos, procedimentos e operações técnicas referentes à produção, tramitação, uso, avaliação e arquivamento dos documentos de arquivo.</p> <p>Tem por objetivos: criar condições de acesso, para os cidadãos e entidades da Administração Pública Federal, aos documentos de arquivo e às informações neles contidas, de forma ágil e segura, resguardados os aspectos de sigilo e as restrições administrativas ou legais; propiciar agilidade e suporte para as decisões político-administrativas do governo. E economia de recursos materiais, humanos e financeiros do governo.</p>
5.2.3 História		<p>O decreto n. 44.862 de 21/11/1958, aprova o Regimento Interno do Arquivo Nacional, determinando suas finalidades e competências. Especificamente, o art. 2º, nos incisos III, VI e VII, no que se refere à Gestão de Documentos, atribui a competência de orientar e coordenar, quanto à administração de arquivos, as atividades dos órgãos responsáveis pela guarda de documentos integrantes dos poderes da União e das entidades de direito privado por ela instituídas; organizar o registro nacional de arquivos, codificando informes sobre os arquivos públicos e privados que apresentem interesse histórico; prestar assistência aos arquivos nacionais, públicos e privados.</p> <p>Ressalte-se que o artigo 15 nos incisos I, II, III, IV, V e VI, do mesmo decreto, determina as competências do Conselho de Administração de Arquivos, que são: propor ao ministro de Estado a aprovação de prazos para a conservação e a promulgação de normas para eliminação dos documentos guardados em arquivos públicos, aprovar normas para preservação dos documentos guardados em arquivos públicos, aprovar as normas de acessibilidade, reserva e sigilo, reguladoras do uso dos documentos guardados em arquivos públicos, fixar normas de assistência técnica aos arquivos dos órgãos dos Poderes da União, e aos arquivos estaduais, municipais e particulares, definir os termos técnicos do vocabulário dos arquivos.</p> <p>Em 15/10/1975, a portaria n. 600-B do Ministério da Justiça determinou, em um novo Regimento do Arquivo Nacional, que o órgão tinha por finalidade recolher e preservar o patrimônio documental do país e, no art. 2º, instituiu a Divisão de Pré-Arquivo – DPA, localizada em Brasília. O art. 5º define como competências da DPA o recolhimento e a conservação da documentação ainda de interesse administrativo e a seleção a que será incorporada ou eliminada.</p> <p>Na década de 1980, o Arquivo Nacional inicia o seu programa de modernização. Nesse período intensificam-se as atividades de assistência técnica, publicação de</p>

		<p>manuais, cursos e seminários, dentre outros. Em 1988, a Constituição determina a responsabilidade da Administração Pública sobre seus documentos.</p> <p>A busca por um marco legal na área de arquivos resulta na aprovação, em 8/1/1991, da lei n. 8.159, que no seu art. 18, atribui a função de Gestão de Documentos do Poder Executivo Federal ao Arquivo Nacional.</p> <p>Ainda no âmbito das políticas e diretrizes nacionais na área de Gestão de Documentos, foi criada no ano de 1995, pelo Conselho Nacional de Arquivos (CONARQ), a Câmara Técnica de Documentos Eletrônicos, com o objetivo de elaborar e propor políticas, normas, diretrizes, procedimentos técnicos e instrumentos legais na área de Gestão e Preservação de Documentos arquivísticos digitais, com base em padrões nacionais e internacionais.</p> <p>Em 28/3/1996, o CONARQ aprovou, pela resolução n. 4, de 28 de março de 1996, o <i>Código de classificação</i> e a <i>Tabela básica de temporalidade e destinação de documentos de arquivo para a administração pública</i>: atividades-meio, instrumentos elaborados por técnicos do Arquivo Nacional, da antiga Secretaria da Administração Federal e do Ministério do Planejamento e Orçamento, os quais foram revisados e ampliados por meio da resolução n. 14, de 24/10/2001.</p> <p>Com o decreto n. 4.915, de 12/12/2003, foram organizadas sob a forma de sistema, com a denominação de Sistema de Gestão de Documentos de Arquivo - SIGA, as atividades relativas à função de Gestão de Documentos no âmbito dos órgãos e entidades da Administração Pública Federal. O art. 3º instituiu o Arquivo Nacional como o órgão central desse sistema.</p> <p>Nos últimos anos, outras atividades vêm sendo desenvolvidas com o objetivo de implementar a Gestão de Documentos na Administração Pública Federal. Em 2004 a subclasse 080 – Pessoal Militar, passou a integrar o Código de Classificação de Documentos de Arquivo para a Administração Pública: Atividades-Meio e a Tabela Básica de Temporalidade e Destinação de Documentos de Arquivo Relativos às Atividades-Meio da Administração Pública, aprovados pela resolução n. 14, de 24/10/2001, do CONARQ, para uso no Ministério da Defesa, nos comandos militares e nas organizações que os integram.</p> <p>Outra atividade iniciada em 2006 e que se encontra em curso é a elaboração de um Código de Classificação e uma Tabela de Temporalidade e Destinação de Documentos das atividades-fim para as Instituições Federais de Ensino Superior – IFES.</p>
