About the official symbol of the ICA Congress Abu Dhabi 2020 — Al Sadu

Embracing authentic tradition and culture — Al Sadu
The versatile handicraft behind the Congress event symbol

1. History
From tents to carpets to belts for camel saddles, this traditional weaving technique is central to the culture and lifestyle of the Bedouin.
In the resource-scarce lands of the Arabian Peninsula, from Bedouin ingenuity emerged the craft of Al-Sadu, the traditional technique of weaving the hair of camels and the wool of goats and sheep into fabric for blankets, carpets, pillows, tents and the decoration of camel saddles and belts.
Al-Sadu holds a place of particular honour in Emirati society, recognised for its essential role in Bedouin life and as a tangible example of adaptation and creativity. Al-Sadu also played a central role in the social lives of traditional Emirati women.
Traditionally, weavers would gather in small groups to spin and weave, exchanging family news and occasionally chanting or reciting poetry, such as Al-Taghrooda.
Because of Al-Sadu’s significance, it was inscribed in 2011 on the UNESCO 'List of Intangible Cultural Heritage in Need of Urgent Safeguarding'.
2. Process
The Al-Sadu process begins with the cutting of wool and goat hair, and the collecting of camel hair. The wool or hair is then sorted according to colour and length. The cleaning process begins with the hair being blown and shaken to rid it of any plant matter, thorns, dust or soil. It is then combed. The process continues with cleaning with hot or cold water three or more times using clay, ash, soap or special Al-Sadu powder as detergent. Next, the hair or wool is spun into yarn using a drop spindle, then dyed – often in bright colours – using local plants and spices available in the United Arab Emirates, such as henna, turmeric, saffron, cactus and indigo. Traditional Al-Sadu colours are black, white, brown, beige and red. The yarn is then woven on a floor loom made of palm or jujube wood.
When a large amount of Al-Sadu material is required, such as for a tent or use at a wedding, multiple looms are used.

3. Designs and motifs
Elements of the desert environment and other important aspects of Bedouin life are often incorporated into the Al-Sadu decorations, symbols, shapes and inscriptions.
Common motifs include geometric patterns evocative of the region’s undulating grasslands and sand dunes; palm trees and flowers; camels, sheep and falcons; Koranic verses; mosques and the names of tribes. These motifs can symbolise specific ideals. For example, a chain with overlapping rings symbolises the unity and cohesion among members of a tribe.
The names of the most frequently used Al-Sadu motifs are: The Masters’ Design, the Tree Design, Al Owerayan Pattern, Spotted Leather Skin Design, Ammunition Passer Design, Grain Design, Asnan Al Khail (Horse Teeth) Design, Scissors Design and Ain Al Ghadeer pattern.

Section 5: Practical considerations

11. Can I use international currencies to make payments in the UAE?
The recommended currency for all transactions in cash is the local currency – AED. Credit and debit cards are widely accepted throughout Abu Dhabi and the wider UAE. Foreign currencies and travellers' cheques can be exchanged in licenced exchange offices, banks and hotels, where a passport is required. Personal cheques will not be accepted. If you're shopping in the souks (markets) or in smaller shops, carrying cash is recommended.

ATMs
Most banks operate ATMs, which accept a range of cards. Most ATMs, although linked to a specific bank, are part of a central network so you can transact with a bank card for a nominal charge. Common systems accepted around Abu Dhabi include American Express, Cirrus, Global Access, MasterCard, Plus System and VISA. ATMs can be found in all shopping malls, major supermarkets, most petrol stations and the airport. For international cards, the exchange rates used in transactions are normally competitive and the process is faster and far less hassle than using traditional travellers' cheques.

Money Exchange
’Bureau de Change’ offices are all over Abu Dhabi and offer rates often better than the banks. You'll find them in all major malls and popular shopping districts. They are usually open Saturday to Thursday, from 8am - 1pm and 4.30pm to 8.30pm, and on Friday evenings. Many hotels will also exchange money and travellers' cheques at standard (non-competitive) rates.

At the airport’s Duty-Free, 4 litres of alcohol beverages may be purchased per person.

There is zero tolerance to driving under the influence. In the emirate of Sharjah, the country’s cultural hub, drinking alcohol is entirely illegal. To read further about code of conduct when travelling to a Muslim country, [click here to read recommendations](#) directly from the UAE embassy.
