Description of formats

Paper Presentation: 20-minute presentation of one or more speakers presenting on a topic. Papers will be scheduled with other papers on a related theme. Questions and comments may be handled after each paper or at the end of the session at the discretion of the moderator and speakers.

Co-Lab Session: 20-minute presentation including 10 minutes for description of a project, research, or collaboration initiatives in their developing or formative stages, and 10 minutes for interactive discussion and feedback from the audience. This session is intended to either solicit comment from peers or to advertise the release of a new project, dataset, or tool.

Lightning Talks: 5-minute session for presenting a single project, demonstrating technology or pitching ideas, and connecting with other delegates.

Panel Discussion: 90-minute session consisting of three to five individuals discussing theories or perspectives on a given topic. Panels should be coherent in presenting a substantial body of research or a research question. Chair duties may be performed by one of the speakers. Panels that include speakers from multiple ICA regions are strongly encouraged. There will be time for only a limited number of panels on the programme.

Poster: Presentation of research, a project, an idea or other type of work in the form of a paper poster that conference participants may view in a dedicated space at the conference venue. Presenters will be required to be present during the poster session in order to provide explanations and answer questions in relation to the poster presented.
